

Earth Care

Policy perspective	Businesses and individuals are responsible for caring for the environment and doing all they can to model sustainable practices within their workplace.
Policy	Lager Australia makes earth-friendly and sustainable choices whenever possible. Staff and management are encouraged to promote and support these choices and to act accordingly whenever practicable.
Policy Guidelines	<ol style="list-style-type: none">1. Lager Australia will run as a paperless organisation and invest in appropriate technology that allows operation with minimal need for paper.2. When paper is needed (eg. invoices) recycled paper will be used.3. Whenever applicable, all waste products are to be recycled, for example waste paper, drink packaging, food packaging.4. Lager Australia will offer its customers a recycling services for old bearings, chains and other metal parts at no charge.5. Lager Australia will reduce greenhouse emissions by investing in greenpower, as per the government guidelines (www.greenpower.gov.au)6. Lager Australia Employer superannuation fund contributions default to a sustainable super fund. Staff must informed of the rationale and encouraged to make their own decisions about selecting a superannuation fund that best meets their needs.7. Lager Australia will utilise suppliers that demonstrate awareness of environmental issues.8. Company owned vehicles are to purchase ethanol blend fuel only. Any exceptions will require approval from company directors.
